

This exploded view diagram illustrates the assembly of a portable electronic device. The components are numbered 1 through 29. The assembly process is as follows:

- Top Cover (1)**: The main upper housing.
- Control Panel (2)**: Features a display and buttons, mounted on the top cover.
- Mounting Hardware (3-10)**: Includes screws (3, 4, 5, 6, 7, 8) and a bracket (9) used to secure the control panel and other internal components.
- Internal Frame (11)**: The main chassis housing internal components.
- Mounting Hardware (12-15)**: Includes a screw (12), a bracket (13), a washer (14), and a nut (15) for securing the internal frame.
- Internal Components (16-20)**: Includes a battery pack (16), a circuit board (17), a connector (18), a switch (19), and a small component (20).
- Mounting Hardware (21-24)**: Includes a screw (21), a bracket (22), a screw (23), and a screw (24) for securing internal components.
- Bottom Cover (25)**: The main lower housing.
- Mounting Hardware (26-29)**: Includes a screw (26), a bracket (27), a screw (28), and a screw (29) for securing the bottom cover.
